Dolman: Sin:—The first lessons I took from you some time Six:—The first lessons I took from you some time slace in Phonography, have enabled me to save more than two-thirds of the labor in preparing my sern.ons, and I have no doubt it will soon enable me to save three-fourths of it. I have never spent time more profitably than in its attainment, and I feel perfectly free in recommending it to Clergymen generally, as a means by which a vast amount of time may be saved, and that too with far less effort than is generally supposed. Its principles are few and simple, of easy attainment and suited to the full expression of every word in the language, either for present use or permanent record.

Yours respectfully, J. S. HAYS, Pastor of the 2d Presbyterian Church, Nashville, Tenn If Clergymen would devote one week to its attain-ment it would enable them to save six times that amount of time the first year. Southern Trunk Manufactory.

The American Photographic Porcelain

Having secured their novel and ingenious invention by American and European patents, are fully prepared to execute all orders for "MINATURE LIKENENES OF PER ONS ON CHINA," presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water color drawing, and a hitherto unattained quality of durability, by being rendered as imperishable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—portraits can be reproduced with faultiess accuracy, and delicacy of delineation, upon Porcelain wares of any description and dimension used as articles of luxury or of household utility, such as articles of luxury or of household utility, such as URNS, VASES, BREAKFAST CUPS, TOI-

thereby securing faithful portraits and furnishing an unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of these patrons of the Fine Arts desirous of having Portraits on Porcelain, the Company have imported from Europe a collection of superior porcelain goods, manufactured to their own order, which they sell at cost prices.

As the American Company are owners of the patent right, and consequently the only persons anthorized to use the process, they have determined, in order to afford People in every section of the Union an opportunity to possess Portraits on China, to make the following proposition to residents in the country, who are unable to visit personally the Atelier and Galleries in New York: Persons sending a photograph, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by rive bottlars, will receive in return by express, free of other charge, a richly ornamented Breakfast Cup and Saucer, with the portrait transferred thereon.

By transmitting a daguerreotype and revision of the patented process.

By tending a pair of daguerreotypes and revision by the patented process.

By sending a pair of daguerreotypes and revision by the patented process, with the portrait executed equal to minature paintings; and, in like manner, portraits can be resprendiced on porcelain wares or Vases of every quality of finish, ranging in price from Twenty to One Hundred deliars the pair.
